

DOUBLE DOMESTIC WATER CIRCULATOR PUMP

Technical datasheet Nr 68

DESCRIPTION:

- High efficiency
- Suitable for transfert module and homogenization module
- Temperature: 0 to 80°C
- Built-in motor protection
- Control input 0-10 V (depending on the application)
- Automatic fault-actuated switchover dual pump management

TECHNICAL SPECIFICATIONS:

Reference	Type	Transfer module* flat/tube (m ²)	Connection	Nominal pressure (bar)	Body	Main supply	Absorbed current (A)
2x40030410504	2xStratos-Z 25/1-8**	160 / 140	1"1/2 - 1"	10	Brass	1~230V 50Hz	1.20
40030410520	Stratos-ZD 32/1-12	- / 300	Flange DN32	6/10	Grey cast iron	1~230V 50Hz	1.37
40030410523	Stratos-ZD 40/1-8	- / 350	Flange DN40	6/10	Grey cast iron	1~230V 50Hz	1.37

* Information for reference only. It is imperative to check the available head against the height of the installation.

** 2 x single circulator pump
